Frontend Developer | React.js | JavaScript | Web Development

Professional Summary

Aspiring React.js developer with hands-on experience in building responsive, single-page web applications using **HTML5, CSS3, JavaScript (ES6+), and React**. Proficient in developing reusable components, managing application state, and ensuring seamless user experiences. Completed several real-world projects including an **e-commerce app, chat-bot, portfolio, and to-do manager**. Experienced in leveraging AI coding tools such as **ChatGPT, Claude, DeepSeek, and GitHub Copilot** to enhance productivity and optimize development workflows.

Technical Skills

- ❖ Frontend Development:
 - ✓ HTML5, CSS3, JavaScript (ES6+), JSX
 - ✓ React.js, React Hooks, React Router, Context API
 - ✓ Props, State Management, CRUD Operations
 - ✓ Virtual DOM, Local State, Controlled Components
- ❖ Tools & Platforms:
 - ✓ Git & GitHub, VS Code, Chrome Dev Tools
 - ✓ AI Coding Tools: ChatGPT, Claude, DeepSeek, GitHub Copilot

Project Experience

- ❖ **E-Commerce Website** | <https://sammsung-store.netlify.app/>
 - ✓ Built a responsive e-commerce application using React.js and Axios. Implemented dynamic routing, product listings, and global state management using the Context API. Designed intuitive UI components and ensured smooth cart operations and navigation flow.
- ❖ **Portfolio Website** | <https://nambitechie.netlify.app/>
 - ✓ Developed a personal portfolio to showcase skills and completed projects. Applied reusable components, responsive design principles, and client-side routing to enhance navigation and presentation.
- ❖ **Chatbot Assistant** | <https://chat-bot-walmart.vercel.app/>
 - ✓ Created an AI-style chat-bot using React.js to simulate real-time user interaction. Integrated responsive layout and modular design to ensure a smooth conversational UI across devices.
- ❖ **To-Do Application** | <https://todo-app-lac-sigma-48.vercel.app/>
 - ✓ Developed a functional and responsive to-do app using React.js. Features include task addition, deletion, completion, and local state management using React Hooks. Emphasized clean code and user-friendly interface.

Professional Experience

- ❖ Frontend Developer – Internship
Coderprofession | Tirunelveli, IN | Jan 2025 – Present
As a Frontend Developer intern, I have designed and developed responsive single-page applications using React.js. My work includes building modular and reusable components, managing application state with Context API, and handling routing with React Router. I implemented CRUD operations using Axios and developed interactive forms using controlled components with integrated validation. I consistently followed best practices in frontend development to ensure clean, scalable, and maintainable code.

❖ Education

M.Sc. Botany

St. John's College, Palayamkottai | 2021 – 2023
