OBJECTIVE

Aspiring React.js developer with a solid understanding of front-end development, particularly with HTML5, CSS3, JavaScript, and React. Completed a comprehensive internship and built multiple projects, including an E-Commerce website, portfolio, and task manager. Eager to apply skills in a professional development environment and continue growing as a web developer.

TECHNICAL SKILLS

- HTML5, CSS3, JavaScript, JSX
- React.js, React Hooks, React Router, Context API
- Virtual DOM, Props, State Management, CRUD Operations
- Git, VS Code, Chrome DevTools

PROJECTS

- E-Commerce Website

Developed using React.js and Axios. Features include dynamic routing, product listing, and global state management using Context API.

- Portfolio Website

Built a personal portfolio with clean UI, showcasing skills and projects. Utilized reusable components and routing.

- To-Do Application

Created a responsive to-do app with add, delete, and complete task functionality using React Hooks and local state.

EDUCATION

M.Sc. Botany | St. John's College, Palayamkottai | 2021 – 2023

INTERNSHIP

Completed a structured internship focused on **React.js**. Gained hands-on experience in state management, routing, and real-world application development.
